

From the Interim Rector...

This past week, I attended my 40th Seminary Class reunion, and I found that all of my classmates had aged, except for me! It was a bittersweet time, for the Chapel in which I had worshipped for my three years in New Haven will be torn down this spring. Time does not sit still for any of us. At St. George's, time is not sitting still for any of us. November brings a number of important events.

November is the last visages of fall, when the leaves finally finish falling, and the air becomes cold and crisp. With this change, we must also be aware of the changes in our lives. We will elect a new president in November; we will begin our preparations for 2009 at St. George's, which will determine our next chapter in our corporate life. We also begin to transition into a new liturgical season.

November is the month when responsible citizens should exercise their voices in their country, by voting in the upcoming election. Our collective voice is part

of what makes our country great.

In November we will begin the Every Member Canvass. This is an important year, as the desire of your Interim Rector, Finance Commission, and Vestry is to present a balanced budget for 2009. The budget will be challenged with the Search Process costs, and the moving expenses for the New Rector. We are called by Jesus Christ to be

good stewards of all that God has given us, and I would hope that each of us would prayerfully consider our response to God's bountiful goodness. As a part of our stewardship, we will be celebrating Thanksgiving. It reminds us once again that we are called 'to praise God from whom all blessings flow.'

After Thanksgiving, we will then begin preparations for Christmas, both in the Sacred and the secular realms. In the secular realm, we will be out finding that 'perfect gift for that special someone.' This area of our lives can easily take over our lives, making us so focused on the materialistic aspects of life, that we forget the marvelous message of Christmas. Although much must be accomplished in time for the holidays, the more important preparation is Sacred, with the beginning of Advent.

As I found out during this trip to my seminary, change does happen, and is not bad. Change gives us challenges to which we have the opportunity to grow. I pray that each of us may grow in the knowledge and love of our Lord.

Dear People of St. George's,

Its fall and the trees are in full glory. I'm always reminded of the Parents Group that came together for church and social functions. Although we seemed to meet quarterly, September and October were good months to get together with each other for a dinner or a volleyball game, planning kid's events and talking church and other things. We had some great autumn campouts, too. Houston Woods and East Fork Lake group campgrounds were especially fun for hikes, fishing, campfires, schmores, ghost stories and trivia games.

We were an eclectic bunch that grew together during a tumultuous time. We had families whose backgrounds included a city manager, a hospital chief, college professors, Air Force officers, doctors, CPA's, public health officials (me!), insurance agents, industrial managers and more. We saw our way through the resignation of a rector, the interim-rector period and the reformulation of St. George's under a new priest. All the while we took charge of the development curriculum for our kids and ensured that they made the most of a Christian education and way-of-life. I'll bet there is not one of us that doesn't look at our grown-up kids without realizing the positive effect that we had as a collective family.

I don't know what transpired to form that wonderful ensemble. Perhaps there were parents that simply took the lead. It seemed like just a phone call or a general invitation in a weekly bulletin was all that was needed to be a part of the group. It was something we looked forward to and it made parenting a pleasure (for the most part). What could be more fun than saying "Let's get the word out to all our families that we're arranging a campout?" The reaction was certainly positive with us.

The youngsters we had in our charge are grown up now but we continue an old habit. For us, the Parent's Group has been supplanted by the Foyer Group. This is a neat scenario where adults get together with each other for a dinner and good conversation about our lives, church and other things. It's a special venue that helps you get closer to your fellow parishioners. Jesus used dining experiences to get his message of love and unity across. He was a good Episcopalian.

We can all be good Episcopalians! Join in something that celebrates your faith. Engage each other in activities that just might bring special memories. St. George's is there for that to happen. Time, treasure and talent. The more you give it, the more you will receive in return.

Uh, Oh!!! These last couple of nights have yielded frosts. All those beautiful, fall colored leaves are being dumped in my yard. Time to grab the rake. *Gotta Go!!!*

Peace be with you!

It is a wonderful spiritual group centered on Prayer.

I was recently in the USA at a worship service. Among other things, the lay leader prayed for those who suffer the stigma, discrimination, and rejection accompanying HIV/AIDS. My mind wandered (I don't seem to be any better at concentrating on what's happening in the service than when I was ten, but that is a different story) to an episode several weeks ago at the Clinic.

A patient generated some strong feelings on the part of some Clinic personnel, some serious fears, and some reluctance to take care of him when he came for treatment. He did not have HIV/AIDS. The Clinic has an active HIV/AIDS treatment unit. Most everyone is now comfortable with that condition. He had leprosy. After a bit of an initial delay (and some quick reassurances to those concerned), the man with leprosy was folded back into the usual care system at the Clinic.

In some ways, our work has not moved all that far beyond how things were "in Biblical times." Leprosy here still incites concern and may produce its share of prejudice and rejection. Tuberculosis (the 19th-century's "White Plague") also provokes similar reactions at times. The "stigma, discrimination, and rejection" associated with medical conditions have an historical reach stretching well beyond HIV/AIDS.

It is actually helpful for us from a spiritual standpoint to have so many Biblical elements within our daily circumstances here (leprosy, people going daily to the well for water, donkeys in the streets, ...). It gives us a context for our faith and thinking about the Bible that we did not have while living in Cincinnati. Maybe not a better context, but at least a different one.

I got my mind back into the service before the end of it. One problem with my mind wandering is that I nearly always end-up with more to pray about: the stigma, discrimination, and rejection accompanying HIV/AIDS... and tuberculosis and leprosy. So, please ...

Keep praying, **Michael**
